Subject: litter/fly tipping

Hi John

We had a walk-through at the Trail this week, unfortunately I didn't have a bag for the litter so it still needs a litter pick, I may be able to go back up there next week.

I did spot some fly tipping which can not be called Trail users litter, there were broken tiles amongst it. It wasn't easily seen from the path but I had ventured off it. I could see that the fly tipping would have been brought through to the wooded area from the road. It was off the top path.

There are a few maintenance tasks being taken in hand plus some new plaques to be installed.

We have received enquiries for new sculptures to be created but I expect this weeks Covid restrictions announcements may delay progress for those.

We are delighted that we have a volunteer to refurbish the bottle top mosaics.

Linda
